Dear Friend of AEC Partners,

We are pleased to announce that the Clinton Global Initiative has recognized AREVA Med LLC efforts to develop innovative production methods of medical-grade Lead-212. AEC Partners supports Areva to develop powerful new anti-cancer treatments, including the radio-therapeutic agent, Lead-212.

AREVA Nuclear Medicine Efforts Recognized by The *Clinton Global Initiative*

- ▶ NEW YORK, September 24, 2009 – AREVA, through its subsidiary AREVA Med LLC, announced today that the Clinton Global Initiative has recognized its efforts to develop innovative production methods to produce medical-grade Lead-212. This isotope is used to combat cancer in promising alpha radio-immunotherapy treatments.
- ▶ Since the signature of a cooperation and research agreement with the U.S. National Cancer Institute and the University of Alabama, AREVA Med has increased its efforts to demonstrate the benefits of the medical-grade lead-212.
- ▶ Relying on its long experience in radiochemistry and nuclear engineering, AREVA has developed new processes to extract rare isotopes derived from its industrial activities.
- ▶ AREVA CEO Anne Lauvergeon said: *“On behalf of all AREVA employees, I am honored that our efforts in nuclear medicine have been recognized by the renowned **Clinton Global Initiative**, which supports projects that are innovative and beneficial for people at a global scale. This recognition demonstrates our spirit of commitment worldwide. It is also a tribute to our American partners, including the U.S. National Cancer Institute and the University of Alabama at Birmingham.”*

As the leading U.S. nuclear vendor and a key player in the electricity transmission and distribution sector, AREVA Inc.'s 6,000 U.S. energy employees are committed to serving the nation and paving the way for the future of the electricity market. With 45 locations across the nation and nearly \$2 billion in energy revenues in 2008, AREVA Inc., through its subsidiaries, combines U.S. leadership, access to worldwide expertise and a proven track record of performance. In the U.S. and in more than 100 countries around the world, AREVA is engaged in the 21st century's greatest challenges: making energy available to all, protecting the planet, and acting responsibly toward future generations. AREVA Inc. is headquartered in Bethesda, Maryland.

The Specialist in Healthcare Industry, Life Sciences and Health System Management

- ▶ A team of 25 professionals, (MDs, PhD, Pharmacist, Engineer, ...) primarily composed of experienced Consultants recruited from industry, banking and consulting firms with diverse backgrounds, cultures and nationalities (American, Canadian, French, Irish, Russian, Spanish)
- ▶ A Mergers & Acquisitions and Business Development advisory practice, as a logical extension of our core business
- ▶ Serving clients located across 15 countries on international assignments from two offices, Paris and New York
